NOTES: THIS NYMPH IS A GREAT ALL AROUND PATTERN BUT ONE THING THAT REALLY MAKES IT APPEALING IS IT'S PERFORMANCE IN SLOW AND SLACK WATER. THE EXTREMELY SOFT CDC FIBRES HAVE LOTS OF MOTION IN THE WATER AND WHEN DEALING WITH SLACK WATER IN EDDIES AND INSIDE SEAMS YOU CAN IMPART MOTION IN THIS FLY WITH SMALL QUIVERS OF YOUR ROD TIP. ANOTHER GREAT PERK IS THAT IT WORKS VERY WELL SWUNG, SO IF YOU SEE A RISING FISH DOWNSTREAM OF YOU, JUST TIGHTEN UP TO THE FLY AND SWING IT LIKE A WETLY IN FRONT OF THE FISH!
